

## Rockwell Part

Rockwell Parts - AxleTech International is a premier supplier in the globe of specialty vehicle drive-train systems and parts along with off highway vehicles. The business prides itself on being its clients' chosen supplier. AxleTech strives to meet and exceed their clients' expectations for quality, service, technology and delivery. They believe in working within an environment which supports the utmost integrity with empowered teamwork, combined with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious business and offering a safe environment for their employees to work in. Moreover, they have implemented lots of programs within the organization in order to help convey these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with any comments or questions, because they are glad to share and promote this policy with a greater knowledge of their efforts. They are extremely devoted to preserving and improving the environment. AxleTech has an EHS program that not just protects the natural world but which also actively protects their workers and neighbors too.

AxleTech specializes in the manufacture and designing of planetary axles used for both military and commercial applications, which could comprise anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider too. AxleTech specifically designs axles in order to meet specific application demands. They have over one thousand various axle specs in their present offering. With over 100+ years of experience and history, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The company is well known in numerous military and commercial applications. They provide complete axle assemblies used for aftermarket replacement requirements, together with servicing axle needs for OE production. Their high mobility ISAS have further details that could be seen in the "ISAS" product collection.
