

Concrete Hoppers

Concrete Hopper - The self-dumping hopper accessory can automatically activate to both dump and release whenever the bumper release touches the side of a dumpster. After unloading is completed, the hopper is able to return to original locked and upright position. This particular piece of equipment even comes along with a cable which allows operation from the seat of the forklift in order to have the alternative of manually dumping the hopper. There is a locking chain provided in order to lock the hopper to the fork truck. This particular product is constructed with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper likewise has a blue powder coat finish in order to maintain durability.
