

## Clark Forklift Parts

Clark Forklift Parts - Currently, there are over 350,000 Clark forklifts performing worldwide, and upwards of 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive designs of forklifts, with components covering more than 120,000 particular items for all of its automated equipment. Your local Clark Supplier is your total source for availability of all your components requirements offered by Clark Totalift.

Clark has a phenomenal Parts Supply team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Internationally, Clark has one of the most outstanding dealer support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing safety features such as the operator restraint system. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark's recurrent effort to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the internationally approved quality standard ISO 9001 for all of their manufacturing plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the particularly economical and advantageous system of "Lean Manufacturing" for its assembly plants and application of resources. This system was established to acknowledge the most successful approaches of production facility management and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to improve the effectiveness and excellence of their products while minimizing expenses. The new value engineering agenda combines innovative product growth and offers superior client support and service within the industry.
